SUMMARY

Flutter Developer with 3+ years of experience in mobile application development. Proficient in requirement analysis, design, implementation, maintenance, and troubleshooting. Hands-on experience with industry-standard technologies, including Visual Studio. Involved in all phases of the project life cycle, from requirements gathering and client interaction to task management, QA support, and server deployments. Worked on database projects utilizing Visual Studio and other Microsoft technologies. Strong expertise in Flutter (Dart) with a solid understanding of cross-platform development. Excellent verbal and written communication skills, with a proven ability to collaborate and coordinate effectively within teams.

EXPERIENCE

Flutter Developer

RenesisTech

July 2023 - Present

- Flutter Developer with 3+ years of experience in mobile application development.
- Worked on 4+ AI-based projects, specializing in Flutter.
- Strong expertise in API integration and data management.
- Developed user-friendly and responsive UI for mobile applications.
- Collaborated with cross-functional teams to deliver end-to-end solutions.
- Skilled in optimizing app performance and debugging complex issues.
- Push apps on play store & app store.

Jr. Flutter Developer

SquareNex Technologies

February 2022 - March 2023

- Developed user-friendly and responsive UI for mobile applications.
 - Integrated third-party services and SDKs into Flutter applications at SquareNex Technologies, ensuring seamless connectivity and streamlined user experiences across diverse platforms.
-

PROJECT

MyDesiary

Renesis Tech • apps.apple.com/pk/app/mydesiary/id6758665232 MyDesiary

- Engineered robust UI components and integrated diverse APIs to enhance application functionality, elevating user experience and enabling seamless connectivity across platforms.
- Engineered scalable platform architecture for MyDesiary, integrating advanced features and optimizing backend workflows to support seamless user journeys and efficient operations.

Mediverse

Renesis Tech • apps.apple.com/pk/app/mediverse-health/id6753073047 Mediverse Health

- Independently developed and published a cross-platform health management app using Flutter and Dart.
- Integrated Restful APIs.
- Integrated Stripe API and insurance card validation for secure online payments.
- Implemented video consultation features with real-time audio/video calling and scheduling.
- Designed intuitive UI/UX, managed state efficiently, and handled Firebase authentication and notifications.
- Deployed the app on Google Play Store and App Store.

Doc Management

Renesis Tech

- Document Management like scanning, , creating PDF etc.

Stylala

Renesis Tech

- Designed a clean and intuitive user interface for the project
- Integrated AI-powered and other APIs to enhance features
- Worked closely with backend developers to ensure smooth API connectivity and performance optimization

KyooPay

Renesis Tech

- Developed and integrated maps for location-based services within the e-commerce app.
- Designed and built the entire project UI, ensuring a user-friendly and intuitive experience.
- Integrated various APIs, including AI-based APIs, for enhanced functionality and features.
- Collaborated with the backend team to streamline API connections and optimize performance.

StoryMii

Renesis Tech • apps.apple.com/pk/app/story-mii/id6476496606 Story Mii

- Built intuitive and responsive user interfaces using Flutter for mobile applications.
- Integrated AI-based APIs to enhance app functionalities and user experience.
- Worked extensively on API integration for seamless data flow and interaction between front-end and back-end systems.
- Developed custom UI components tailored to project-specific requirements.
- Ensured smooth API communication, including handling errors and optimizing data transactions.
- Implemented AI features through API integrations, contributing to intelligent and dynamic app behaviors.

EvalPro

Renesis Tech • apps.apple.com/pk/app/evalpro-ai/id6469349191 EvalPro.ai

- Designed and developed project UIs using Flutter to ensure responsive and user-friendly interfaces.
- Integrated APIs to connect backend services and manage data flow within applications.
- Implemented AI API integration for a chatbot, enhancing interactive user experiences.
- Ensured smooth functionality through seamless API integrations with external services.

EDUCATION

Bachelors of Science in Information Technology

Superior University Lahore • Lahore • 2023

CERTIFICATIONS

Flutter Development

PNY • 2022

SKILLS

Bloc State management
Testing and debugging
User interface design
Firebase push notifications
Rest API's integration
